See notes below

Supervisor Yeager reported that the FY18 County proposed budget includes 8 new positions for GTZ in the Public Health Dept budget, which he feels will get approved. There was some discussion about these new positions and how they will be incorporated into the overall GTZ effort. Dena Dickinson reinforced that it will take the work of the whole community to Get to Zero, so not to rely on PHD for the work/solution, although it is great to have the additional resources in PHD.
