

Year 3-4 Work Plan

		<p><b>National Goals:</b></p> <ol style="list-style-type: none"> <li>1. Reduce new HIV infections.</li> <li>3. Reduce HIV-related disparities and health equities.</li> </ol>
		<p><b>Local Comp Plan Objectives:</b></p> <ol style="list-style-type: none"> <li>1. Increase the estimated percentage of Californians living with HIV who know their serostatus to at least 95%.</li> <li>4. Decrease the percentage of persons with new HIV diagnoses in California that are diagnosed with Stage 3 (AIDS) within 12 months of diagnosis to less than 17%.</li> </ol>
		<p><b>Local GTZ Objectives in Goal 1:</b></p> <ol style="list-style-type: none"> <li>4. Decrease the percentage of persons with new HIV diagnoses in the San Jose TGA area who are 45 years and older that are diagnosed with Stage 3 within 12 months of diagnosis to less than 25% (47% in 2014).</li> </ol>
		<p><b>Measures to be achieved by July 30, 2019:</b></p> <ol style="list-style-type: none"> <li>1. Document number of provider trainings conducted, number of providers trained.</li> <li>2. Track number SCC LEO data: STD/HIV testing, needle exchange.</li> <li>3. Secure matching grant funding from the Health Trust (\$100K) to fund a primary care practice for implementation of opt-out HIV screening, PrEP/PEP, rapid ART initiation and linkage to care.</li> <li>4. Monitor process and outcome measures achieved by primary care practice site.</li> <li>5. Develop a communication plan between GTZ testing team and local providers to disseminate GTZ Testing Team accomplishments.</li> <li>6. Investigate automated/routine testing implementation at Santa Clara County Main Jail.</li> <li>7. Investigate automated/routine implementation at Valley Medical Center Emergency Department.</li> <li>8. Develop database with dates/times/locations for all local hospital provider meetings and grand rounds.</li> <li>9. Investigate the need for STD/HIV screening in migrant day worker areas/programs.</li> <li>10. Conduct feasibility study on how to incorporate rapid syphilis testing in care settings</li> </ol>
		<p><b>Main Activity B1:</b> Expand routine opt-out HIV testing in health care settings.</p> <p><b>Targeted Populations:</b> Hospital emergency departments, FQHC and community health centers, primary care providers, jail and prison health systems, Kaiser, Anthem Blue Cross, HealthNet, Covered California Qualified Medical Plans and other private payers in CA, MediCal and MediCal managed care plans and NCQA.</p>
		<p><b>Process Measures</b></p>

**GTZ Priority 2 – Guideline-based STD and HIV Screening**

**Strategy B: Increase & Improve HIV Testing**

Measure	Strategy	Action Steps	Baseline Data April-June 2018	Goal	Responsible	Status
1	B	Provide Quarterly Data on # of Providers trained.			Lori	Receive 1 <sup>st</sup> Q Report Oct. 15
2	B	Document number of HIV Testing Data.			Raj	Receive 1 <sup>st</sup> Q Report Oct. 15
3	B	Report On Matching grant funding from the Health Trust.			Candelario	Confirm in Q1 Complete
4	B	Monitor process and outcome measures achieved by primary care practice site (Reference 3).	0		ALL	Ongoing
5	B	Develop a communication plan between GTZ testing team and local providers to disseminate GTZ Testing Team accomplishments.			ALL	Agenda item for next meeting
6	B	Investigate automated/routine testing implementation at Santa Clara County Main Jail.			Raj	Quarter 2
7	B	Investigate automated/routine implementation at Valley Medical Center Emergency Department.			Raj	Quarter 2
8	B	Develop database with dates/times/locations for all local hospital provider meetings and grand rounds. (Look to connecting with #1)			PHD intern	Complete by End of Q2
9	B	Investigate the need for STD/HIV screening in migrant day worker areas/programs.			Crystal	Have Speaker present to team by end of Q2. Dec. 30th
10	B	Conduct feasibility study on how to incorporate rapid syphilis testing in care settings			TBD	For Q4

		<p><b>Main Activity B3:</b> Expand HIV testing targeted to key populations.  <b>Targeted Populations:</b> Gay men and other MSM, PWID, transgender people, Black/African Americans, Hispanics/Latinos, low-income communities, non-English speaking communities.</p>				
		<p><b>Outcome Measures</b></p>				
Measure	Strategy	Key Action Steps			Responsible	Status
2	B	Track # of Needle Exchange clients who are tested. How many people accessed services at the Needle Exchange and of those, how many received an HIV test and how many were positive. Were the positives linked and retained in care?			Raj	Raj – please update.
